

SHRUTI DAS

[Ranchi, Jharkhand](#) | [+91-6204704820](#) | [shrutidas574@gmail.com](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Computer Science undergraduate who builds, deploys, and ships. Experienced in delivering real client projects, integrating APIs, and writing infrastructure-level code. Holds a certified background in Product Management with exposure to structured analysis, requirements gathering, and cross-functional collaboration. Comfortable across the full stack and ready to contribute in frontend, DevOps, or tech-adjacent roles.

EDUCATION

Institute of Technical Education & Research (ITER), Bhubaneswar 2022 – 2026

B.Tech in Computer Science & Engineering | CGPA: 8.62 / 10

DAV Public School Hehal, Ranchi 2021 – 2022

10th: 92% | 12th (PCM): 85%

EXPERIENCE

RSB Healthcare Consulting Feb 2025 – Present

Software Engineer Intern Bangalore, India

- Built and maintained responsive React frontends for a live healthcare SaaS platform.
- Integrated complex backend APIs.
- Developed and deployed AWS Lambda functions (Node.js) for serverless workflows — automated SMS/email notifications, report triggers, and data syncing pipelines.
- Collaborated across frontend and backend teams in an Agile environment, participating in sprint planning and code reviews.

MoBuzz Media Private Limited Jul 2025 – Sep 2025

Web Developer Intern Odisha, India · Remote

- Designed and developed 3 fully functional, responsive client websites from requirements to deployment using React.
- Conducted client interactions to gather requirements, translated them into feature workflows and working prototypes.
- Supported post-release monitoring, issue triaging, and iterative improvements based on client feedback.

PROJECTS

Deployed a 2-Tier Application on AWS | AWS, Terraform, Docker, CloudWatch

- Designed and deployed a 2-tier frontend + backend architecture on AWS using Terraform for Infrastructure as Code (IaC).
- Implemented VPC, EC2 instances, subnets, security groups, and networking for a scalable, secure cloud environment.
- Monitored application health and EC2 metrics via AWS CloudWatch; implemented alerting and documented operational SOPs.

Resume Analyzer | React, Python, LLM API

- AI-powered tool that scores resumes against job descriptions and surfaces targeted improvement suggestions using an LLM API.
- Built full React frontend with file upload, JD input, structured scoring output, and improvement recommendations.

BareGlow: Skincare E-Commerce | React, JavaScript, CSS

- Modular, responsive e-commerce frontend with product listings, filtering, and clean component architecture.

Client Websites: MoBuzz Media | React, JavaScript, SEO

- Delivered Shree Ganesh Patholab (healthcare) and Pranabandhu Sahoo (personal professional) websites from requirements gathering to production deployment.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, GSAP, Three.js, Framer Motion

Devops & Cloud: AWS Lambda, AWS EC2, AWS CloudWatch, MySQL, IaC, VPC, Security Groups, Docker

Languages: JavaScript, Java, C++, Bash

Design & Tools: Figma, Canva, Git, GitHub, VS Code, Power BI, Trello

PM & Analysis: Feature Scoping, Acceptance Criteria, Agile, Stakeholder Communication
